\* WE RECOMMEND OUR PRODUCT IN THIS CATALOG

This catalog is printed with eco-friendly process and material. We use Green ocean paper and soy ink. This process reduces Co<sub>2</sub> emission, equal to absorption process of 58 trees for 1 year.

### Labrador's story begins...

At Labrador, we believe in free and independent thinking without limitations. The young and energetic minds of our creative designers enable us to create attractive products with simplicity and minimalism design concepts. Above all, we create our products with love so that our customers have a deep connection with the products.

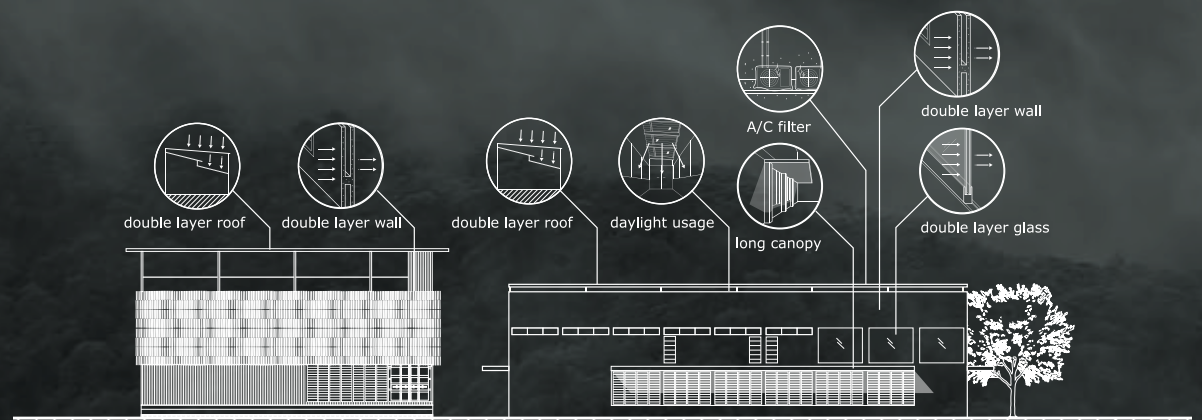

All our products are handmade and have a bold and unique character of design. This product design concept has seen our popularity soaring in international markets. We have established our products worldwide and have received excellent feedback from our customers especially for our products' minimalism, durability and life long attractiveness.

### environmental products?

Nowadays the world are persuaded by cheap and low quality product. With unintentional or being blind, the low quality product and low quality material ruin the world by waste. Low quality product will easily broken or be damaged. So the cost of recycling is maybe more than the price of the product. Is it worth to buy if the product that harm our world eventually? If everyone know this environmental concern, they can help the world by reducing trash.

We believe in using the high quality of raw materials to make our beautiful products. This ensures a very high durability of our product range. It also ensures that the waste is easily recyclable. Like our products, we love our environment and ensure that all our products are eco friendly and waste is minimized and easily recyclable. This is our commitment to make our world a better place.

### [ high quality product = waste reduction ]

### eco, life, design, product, our work...

Our designs and products are meant to serve you forever. Unlike fashion products, our design concept of minimalism and high quality. This improves the natural touch and feel of the product and enhances its life. The low waste design process minimizes natural resource consumption and maximizes natural beauty of leather.

Our factory is also designed on the principles of eco friendliness. It has a unique natural light usage design, a water treatment system, a natural ventilation system and low heat transmissibility. This ensures that our people have a comfortable space to work. Absolutely the recycle process is applied as well.

-  recyclable material
-  local material
-  low energy consumption
-  low waste

### labrador and award

labrador was awarded three prizes by Prime Minister's Export Award

- 1) BEST DESIGN 2009
- 2) BEST GREEN INNOVATION 2014
- 3) BEST THAI BRAND 2017

Prime Minister's Export Award is a prize for success. The highest for both operators and services. This results in encouraging those who have won. We strive to develop our products and services to be of high quality and acceptable.

### labrador was awarded by DEmark Award and GOOD DESIGN Award

The winning product receives the DEmark logo for outstanding design, which can be used to promote well-designed Thai products in the international market. It is hoped that this award will help promote development of domestic products, which will in turn better the quality of life of both domestic and international consumers.

Inspired by simplicity of nature, Labrador products are elaborately craft-made under the concept of "Truth to materials".

To expose the senses of real feeling, touching, and look; we believe that the nature of materials should not be hidden.

The materials used are particularly selected, the full grain aniline leather at its best quality, which enable us to maximize the use of the materials and cause less waste. The materials' premium quality reflects on its durability and beautifully aged.

Labrador, we love creating. The design begins with the way we look at the environment and life balancing. This identity makes our design bold yet simple, natural however unique. We wish the design of Labrador product somehow implied that life should be simple.

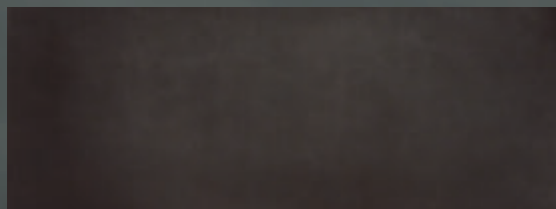

#### RESEARCH + DESIGN + MOCK UP

- research
- sketch design
- mock up model

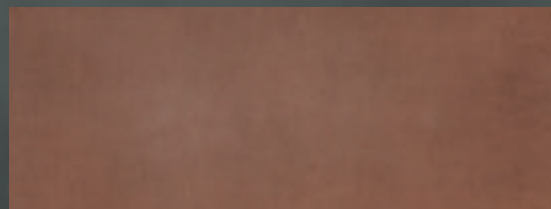

#### NATURAL TO BE EXPOSED

- low chemical applied
- imperfectness is perfect
- recyclable material
- tanning process is emphasized to the most natural touch & feel
- leather the most artistic and valuable material ever

Please note that because each of product is natural leather, there may be slight variation in color and texture. That make leather the most artistic and valuable material ever. The appearances of any of published products may be change for product improvement without notice.

#### TIPS!

- When leather gets wet, clean it with dry cloth and keep it in open and shady area
- Small scratch can be fixed by finger rubbing. Dark stain can be removed by rubber, eraser type of cleaner. Please do not rub too hard.
- Use soft and dry cloth for leather daily care. Cream can be used once in a while or used to make up oily content. Alcoholic solvents such as thinner and gasoline are not recommended.
- Leather needs breathing, thus when stored, dust have to be cleaned and kept in open space.

THE BAGS ARE DESIGNED TO ATTAIN HIGHEST MATERIAL CAPABILITY AND TO MEET SMARTEST SIMPLE FORM.

"humble" is bag collection that is well calculated form. They are able to wrap stuff inside and restore back to the original form itself after taking the stuff out. The bags are designed to reach the highest material capability and to form smartest simple form. Final design create durability of heavy-duty carrier and practical usage. Genuine leather is our main purpose to serve a long-lasting product to customer.

HUMBLE BAG COLLECTION #1

A34 | bag L#1  
W52 H43 D2 cm

A minimalistic bag that designed practically for paper, sketchbook, drawing, magazine, and wide-screen laptop. With labrador own-technique of leather, the body of bag can be stretched to wrap the object inside. In spite of its very sleek look, it is actually very tough.

## ARCHITECT BLACK

THIS IDEA SPARKED IN ONE EVENING WITH A QUESTION.  
"WHY DO ARCHITECTS WEAR BLACK?"

IS THAT A DRESS CODE FOR ARCHITECT OR IS SOMETHING  
THAT ARCHITECTS NEVER EVER THINK ABOUT.

THEN WE CREATED A NEW COLLECTION FROM OUR PASSIONS OF  
ARCHITECTURE THAT MAKE YOU LOOK CREATIVE LIKE ARTISTS,  
WORK LIKE ENGINEERS, GENERATE THINGS LIKE CRAFTSMEN.

HOW ABOUT, IF WE ASK YOU...  
"WHY DO ARCHITECTS WEAR BLACK?"

RE labrador

RElabrador, we use recycled leathers because they are eco-friendly, made up of 65% leather fiber and leather scraps that would otherwise go waste. It is then reconstituted with 20% natural latex, 10% natural fat, and 5% tanning oil. Our green production technology reuses 50% of water, and our waste heat recovery system ensures there will be no pointlessly waste of energy.

We believe that eco-friendly products are an effective method of environmental conservation. As they are made with sustainable design and their longevity helps reduce waste. How simplicity it is makes RElabrador very extraordinary handcraft item.

It's crafted from recycled leather and love

## REcycled leather how it's made?

Please note that because each of product is natural recycle leather, there may be slight variation in color and texture. That makes recycle leather the most artistic and valuable material ever.

The appearances of any of published products may be changed for product improvement without notice.

**100%** RECYCLED NATURAL DESIGN

it's crafted from recycled leather and love

made in thailand

### RElabrador and award

#### RElabrador was awarded by Design innovation contest 2012

The Design Innovation Contest (DIC) is designed to stimulate and promote the development of innovative products with style, style, new models, focusing on creative designs that are different. Including the need for technology adoption. Academic work that improves the usability production technology Material selection

#### RElabrador was awarded by DEmark Award and GOOD DESIGN Award

The winning product receives the DEmark logo for outstanding design, which can be used to promote well-designed Thai products in the international market. It is hoped that this award will help promote development of domestic products, which will in turn better the quality of life of both domestic and international consumers.

SINCE WE HAD BEEN FASCINATED BY THE BEAUTY OF PAPER WRINKLE, IT'S THE START OF Z SERIES. THROUGH AN EXPERIMENTAL DESIGN PROCESS, WE PROUDLY PRESENT TO YOU THE AMAZING SPACE FROM Z SERIES.

**WATER RESISTANCE**

THE PRODUCTS ARE MADE OF WATER RESISTANT WASHABLE PAPER.

**HAND ASSEMBLY**

THIS SOPHISTICATED DESIGN IS GENTLY ASSEMBLED AS A CRAFT WORK, PIECE BY PIECE, BY OUR OWN SKILLFUL PEOPLE IN A GOOD WORKING ENVIRONMENT.

**ECO-FRIENDLY MATERIAL**

THE MATERIAL IS MADE OF RECYCLE FIBRE. PRINTED WITH SOY INK.

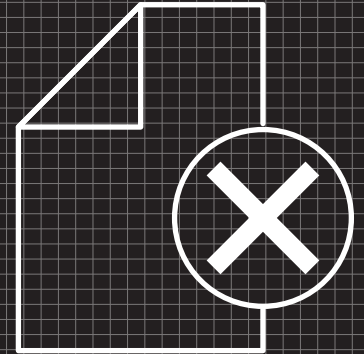

**TEAR RESISTANCE**

MAKING THE STRUCTURE AND SURFACE STRONGER, IT'S TEAR RESISTANT AND DURABLE MATERIAL.

# USE IT CREATIVELY!

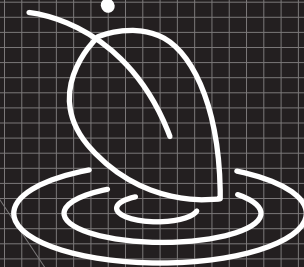

## NOT A PAPER

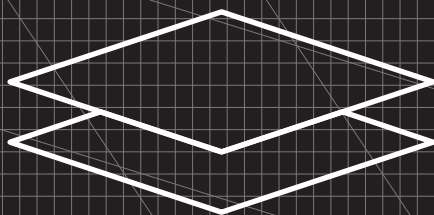

Z SERIES IS MADE OF A PROPRIETARY BLEND OF NATURAL CELLULOSE FIBRE PRODUCED IN GERMANY. THIS MATERIAL IS LIGHT, WATER RESISTANCE, AND TEAR RESISTANCE.
